Nothing behind a login.

Already convinced? Search **Centurion Blue** on the App Store and on Google Play. It runs in any browser too, and one account syncs across all of them.

Quietly, on the same free login. The **Denver Secondary Employment Exchange** is open: browse posted work, take a shift, hand one back, or post a job of your own. It is only as good as the number of officers on it, so it is quiet while word gets around. **Premium**, \$59.99 a year with one free 30 day trial per officer, is what adds the job and pay tracker, expenses, mileage, taxes, the dashboard and the **Scheduler Portal** for the officers who build and fill those jobs. A scheduler's roster never pays anything.

Centurion Blue is an independent app, not affiliated with, endorsed by, or representing the Denver Police Department or the City and County of Denver. Built for individual officers, not for departments. A record keeping aid, not tax advice; payroll and the department's records remain the official ones.

Wellness point values follow department program guidelines that are not published publicly, so confirm current values and deadlines with DPDWellness@denvergov.org before you submit. The Marketplace is a Denver edition service of Centurion Blue, which is not a party to any sale; listings and messages are never shared with the Denver Police Department. Pricing may change.
